

ECONOMY is the uppermost thought in the war-swept world of today. Naturally LA FRANCE Shoes now have a greater attraction than ever before, as LA FRANCE Prices—in both peace-times and war-times—have always appealed to the most discriminating, yet purse-prudent women.

The savings you make on LA FRANCE Shoes are not charged up to style and quality. They are savings made possible by the mighty output of a giant factory, where the cost of production has been reduced to the minimum by modern equipment, scientific methods, master minds and expert workmen.
